## ORGANIZATIONAL EXPERIENCE

---

### De La Salle University: CATCH 2T26

*Student Services Executive · Software Technology Program Representative*  
2023–2024 · 2024–Present

- Created Enlistment Hubs for **8 CCS programs**, assisting over **1,000+ students** during course enlistment
- Represented the Software Technology Program, consisting of **200+ students**, relaying concerns to the administration

### De La Salle University: Computer Studies Government

*Student Services Executive*  
2024–Present

- Coordinated logistics for and facilitated **2 major college-wide events** attended by over **600+ students and faculty**
- Personally assisted **50+ students** across different batches with academic concerns, enrollment issues, and university processes

### De La Salle University: La Salle Computer Society

*Associate Vice President for Corporate Relations*  
2024–Present

- Managed a PR team of **10+ members** and secured **3+ internal partnerships** for Tech Summit 2024
- Oversaw planning and execution of “Tech Talks,” a recurring event series with **50–100 attendees per term**
- Assisted in negotiations with **5+ external companies** to establish collaboration and sponsorship deals

### De La Salle University: Green Giant FM

*Web Management Committee Member*  
2024–Present

- Proposed and documented **2 new website features**—a services page and a hero page—which were approved for development
- Contributed to the **UI/UX redesign** of the organization’s website, collaborating with designers and developers
- Conducted regular check-ins with **all 15+ committee members** to monitor well-being and support internal communication

## EDUCATION & ACHIEVEMENTS

---

### De La Salle University:

*Undergraduate in Computer Science, Major in Software Technology with a Minor in Data Science*

- Current Standing CGPA: 3.022
- Second Honors on Dean’s List (A.Y. 2022-2023, Term 1; A.Y. 2024-2025, Term 2)
- First Honors on Dean’s List (A.Y. 2024-2025, Term 1)

## PROJECTS

---

- Website Renovation for Dot Zero Hair Studio
  - Redesigned and modernized the studio’s website to improve mobile responsiveness, streamline the booking experience, and elevate overall brand presentation.
- UI/UX Design for Telemedicine Mobile Application
  - Designed user-centric mobile interfaces focused on accessibility, ease of navigation, and enhancing patient-doctor interaction for virtual healthcare delivery.
- NeighborhoodOS Mobile Application
  - Built a hyperlocal community app featuring real-time alerts, emergency assistance, and trusted service listings to foster safer, more connected neighborhoods.

## SKILLS

---

- Adaptive, objective communicator with a strong work ethic and collaborative approach
- Proficient in C, Java, Python, JavaScript, TypeScript, Kotlin, and Dart; experienced in Git-based workflows
- Skilled in full-stack and cross-platform development using React (TypeScript), Flutter, Android Studio, Firebase, and Supabase
- Familiar with low-level systems using Verilog and Assembly, with strong debugging and problem-solving skills
- Experienced in UI/UX design with Figma, and well-versed in technical tools including LaTeX, Microsoft Office, and Google Workspace
